

LEARN PLC BASICS™ WITH MICRO800

Learn to Program and Troubleshoot Rockwell's Micro800 PLCs in a single day of hands-on training for just \$499! And save \$50 when you sign-up for 'open seat' notifications at TheAutomationSchool.com/Live.

Why Choose The Automation School?

Key advantages of taking in-person, hands-on training at The Automation School include:

- New, third generation PLC Basics™ hands-on course developed for Electricians, Technicians, and Engineers™ who want to learn to program and troubleshoot PLCs but have little or no experience
- Taught by a factory certified product specialist who has over thirty-five years' experience using PLCs & PACs, and over a dozen one-on-one interviews with Rockwell experts on the newest products & tech
- In-person training includes hands-on with both Physical Trainers and 3D Simulated Machines
- Optional exercises provided on using Micro800 Sim, Expansion I/O, HMIs, Communications & more!

Existing Student Discount:

If you're enrolled in our M800 Online Course, let us know and we'll deduct that cost from the \$499 price tag of this course!

New Student Bonus:

New students will receive a lifetime seat in our Micro800 Online Course at no additional charge, a \$100 value!
